

SENATOR CLARK OUT OF POLITICS

He Will Make No Campaign
for the United States Sen-
ate Again.

SPEAKS OF MR. HARRIMAN

PROSPERITY OF COUNTRY NOTED
—COPPER SITUATION.

The death of E. H. Harriman would scarcely cause a ripple in the financial or railway world, according to former Senator W. A. Clark, who is expected to leave New York. Mr. Clark said, however, that the retirement of Mr. Harriman from active management of his railroad enterprises would mean that the United States would lose the greatest factor in railroad building and operation that the world has ever known.

"Mr. Harriman built up his railroad interests in the west and put them all in first-class condition before he thought of dividends, and the wisdom of his course has been fully demonstrated," said Mr. Clark. "A man of Mr. Harriman's calibre would not leave his business affairs in such a condition that his death or retirement would mean a calamity to the railroad or financial world. I believe the affairs of the Harriman roads are in such condition that in the event of the retirement of Mr. Harriman there would be no cause for any calamity, and the policies outlined by the 'wizard,' as he is called, would be carried out by his associates."

No More Politics.

Mr. Clark, in reply to a question as to whether he would be a candidate for the United States senate again, said that he, or rather, his newspaper in Butte, had announced with authority that he would not make a campaign for the election.

"I enjoyed my term of office while I was in politics and I believe I was able to accomplish some good for my state while in the senate. Now I must have time for my personal business, and it will take all of my time," said the former senator.

Mr. Clark said he had been in Montana most of the time since last July and conditions there were prosperous, notwithstanding the low price of copper at 15 cents yesterday. "In traveling across the continent three times in the last few months I have had an opportunity for judging conditions with accuracy, and I want to say that there are more evidences of prosperity than ever before in the United States," he said. "We are going to have the greatest corn crop in the history of the country and there is prosperity in every branch of industry. This general condition bodes well for the demand for copper, which, I believe, will result in a better market in the near future."

Mr. Clark said his copper properties in Arizona were in good condition, and copper was being produced there at a lower cost than in the north.

Tries New Motor Car.

At the invitation of Mr. Bancroft Mr. Clark rode to the lake in the new gasoline motor which will run between Ogden and Malad. This was Mr. Clark's first experience with the new car, and he said last night that he believed it was an excellent piece of equipment for short passenger hauls and interurban service.

During the day Mr. Clark held a long conference with W. H. Bancroft and W. R. Kelley, general attorney for the Salt Lake Route. Mr. Clark said that inasmuch as he was a party to the suit before the interstate commerce commission brought by the business men of Utah, he did not care to discuss the merits of the case.

The party, consisting of W. A. Clark, A. J. Johnson, cashier of the Clark bank at Butte, and E. H. St. Clair, Mr. Clark's secretary, will leave for the east in Mr. Clark's private car this morning.

INCORPORATIONS.

The Pierce-Anderson Realty company of Salt Lake filed articles of incorporation with the county clerk yesterday. The capital stock is \$100,000 in shares of \$10 each. The company takes over lots 1 and 2, block 54; lot 1, block 64; lot 5, block 3, block 4, block 85, Plat A, Salt Lake City survey, in full payment for the capital stock. Pierce-Anderson of Chicago owns 90 shares of stock and is president, treasurer and director; Mrs. Louise Anderson holds 50 shares and is secretary and director; and Andrew Howat, with 10 shares, is the third director. Other incorporators are Hugh Anderson and Hannah Louise Anderson.

RECEIVER IS GIVEN A PERMISSION TO BORROW

W. E. Albertson, receiver for the Salt Lake Public Service company, was given permission by Judge C. W. Morse in the district court yesterday to borrow \$1,000 to meet immediate obligations of the company that a portion of the assets of the company may be saved. The claim of the receiver will be a prior lien on the funds of the company for payment when final settlement is made and the affairs of the defunct company are wound up.

NINE TRAINS BETWEEN SALT LAKE AND OGDEN

Supplementary time cards were issued by the Oregon Short Line yesterday, which include the motor car service between Ogden and Malad. This motor will leave Ogden at 8:54 a. m., connecting with the train which leaves Salt Lake at 7:10, and arriving at Malad at 12:10 p. m. The return trip will begin at Malad at 2:30, and the car will arrive at Ogden at 8:30 p. m. With the recent changes, the Oregon Short Line now has nine passenger trains a day each way between Salt Lake and Ogden.

TRAIN RUNS OVER HIM D.SLOCATES SHOULDER IN FALL FROM ROOF

Matthew Stark's Arm Is Amputated
at Elbow at St. Mark's
Hospital.

Matthew Stark, aged 52, living in Bingham canyon, was run over by a Rio Grande Western train Thursday night and sustained injuries necessitating the removal of his arm at the elbow. Stark was found lying on the Rio Grande tracks about 100 yards from the depot at Bingham Junction. When found, it is stated, that he was under the influence of liquor and was unable to give any account of himself. It is believed that he fell upon the track while intoxicated and that the engineer in backing his train ran over him. He was taken to St. Mark's hospital, where the arm was amputated.
